

DITM GANAUR

STUDENT INFORMATION HANDBOOK

Academic Session 2026–27

A practical guide to academic rules, examinations, fees, campus services,
scholarships and placements

Institution	Delhi Institute of Technology & Management (DITM)
Campus	NH-1, Ganaur, Sonipat, Haryana
University affiliation	Maharshi Dayanand University (MDU), Rohtak — as stated on DITM's official website
Official contact shown	9318389921–22, 25; admissionditm26@gmail.com

Important accuracy note: This handbook combines information publicly stated by DITM with practical student guidance. The public material reviewed did not provide a complete current set of academic ordinances, a 2026–27 academic calendar, itemised fee schedules, detailed hostel rules, library fine tables or a college-specific scholarship policy. Such items are clearly marked for confirmation; no unpublished rule or fee has been invented.

Prepared: 2 October 2026

Contents

- 1. How to use this handbook and verify official rules
- 2. DITM overview and courses covered
- 3. Academic regulations and student responsibilities
- 4. Academic calendar and deadline management
- 5. Examination rules, results, rechecking and backlogs
- 6. Fees, payments and refunds
- 7. Hostel rules and residential life
- 8. Library, laboratories and campus facilities
- 9. Scholarships and financial assistance
- 10. Placement policy and career preparation
- 11. Student helpdesk, document checklist and questions to ask

Status key

Published: directly stated in DITM's publicly available material reviewed for this handbook. **Confirm with DITM/MDU:** not fully specified in the reviewed public material, may vary by programme, batch or university ordinance.

1. How to use this handbook

Use this as a student reference and checklist, not as a replacement for a signed university ordinance, current college circular, fee receipt or written instruction from the relevant office.

Which authority normally controls what?

Topic	Where to verify
Degree curriculum, credits, promotion, passing and university examinations	MDU ordinance/regulations for the exact programme, admission year and scheme; department and examination branch
Attendance, internal assessment, lab records and class tests	Current DITM circulars, department notices and applicable MDU rules
Semester dates and registration windows	Current MDU/DITM academic calendar and official notices
Fees, refunds, hostel charges and dues	Written fee schedule from accounts/admissions; obtain receipts for every payment
Hostel, library and campus access	Current handbook/undertaking issued by the respective office
Scholarships	Official scheme portal and DITM scholarship/financial-aid contact
Placements	Current placement-cell eligibility rules and company-specific job description

Before acting on a rule

- Check that the notice applies to your course, batch, semester and admission year.
- Save a copy or screenshot of circulars and keep fee receipts, application acknowledgements and emails.
- If two sources conflict, ask the responsible office for written clarification before the deadline.
- Do not rely on an unofficial social-media message for attendance eligibility, fee amounts, exam dates or scholarship deadlines.

2. DITM overview and courses covered

DITM's official website describes Delhi Institute of Technology & Management as located at NH-1, Ganaur, Sonipat, Haryana, and states affiliation to Maharshi Dayanand University (MDU), Rohtak. The college website also lists AICTE approval/affiliation documents in its documents section.

Courses requested by the student

Course	Typical academic focus (general description)	Duration commonly associated with the degree*
B.Tech Computer Science & Engineering (CSE)	Programming, algorithms, databases, operating systems, software engineering and computing systems.	4 years
B.Tech CSE – AI & Machine Learning	CSE foundation plus machine learning, AI methods, data-driven modelling and intelligent systems.	4 years
B.Tech Artificial Intelligence & Machine Learning (AI & ML)	AI methods, machine learning, statistical modelling, intelligent applications and computing foundations.	4 years
B.Tech CSE – Artificial Intelligence / AI	CSE foundation with AI-oriented subjects and applications; exact title should match the sanctioned programme.	4 years
B.Tech CSE – AI & Data Science / Data Science	Computing, data management, statistics, analytics, machine learning and data-oriented applications.	4 years
B.Tech Electrical Engineering	Electrical circuits, machines, power systems, control and electrical measurements.	4 years
B.Tech Electronics & Communication Engineering (ECE)	Electronic circuits, digital systems, communications, signals and embedded systems.	4 years
BCA	Computer applications, programming, databases, software development and IT foundations.	Often 3 years; confirm current MDU scheme
BBA	Business management, accounting, marketing, finance, human resources and organisational skills.	Often 3 years; confirm current MDU scheme
MBA	Postgraduate management study; subjects and specialisations depend on the approved scheme.	Often 2 years; confirm current MDU scheme

*Durations above are general degree conventions, not a substitute for the programme structure approved for your admission batch. DITM's public course list explicitly shows B.Tech CSE, AI & Data Science, AI & Machine Learning, Electrical Engineering, ECE, MBA, BBA and BCA. The precise naming/availability of every AI variant in the request should be confirmed with admissions and the current MDU curriculum.

Published facilities

DITM's website describes a library with books and journals, computer laboratories, a canteen, sports grounds including cricket and football, a Training and Placement Office, a Women Cell and an Anti-Ragging Committee. Ask each office for its current opening hours, contact person and written procedures.

Admission documents — practical checklist

- Class 10 and 12 marksheets/certificates; qualifying degree or diploma records where relevant.
- Entrance-exam score/rank and counselling/allotment documents, if applicable to the route used.
- Government photo ID, recent photographs, transfer/migration certificate where required, and category/income/domicile certificates if applying under a relevant category or scheme.
- Any gap-year affidavit, medical form or undertaking specifically requested by the college.

Submit only the documents requested for your programme and retain copies of everything submitted.

3. Academic regulations and student responsibilities

The applicable rules depend on the programme, admission year and MDU scheme. The following is a student action guide; it does not assert unpublished DITM-specific thresholds.

Attendance

- Attend lectures, tutorials, practicals, labs, workshops, seminars and other compulsory academic activities.
- Check attendance records regularly with the subject teacher/department; report a discrepancy promptly with supporting evidence.
- Ask the department and examination branch for the minimum attendance percentage, how attendance is calculated, whether medical/other condonation is allowed, and the application deadline.
- Do not assume that medical certificates automatically excuse absence or guarantee examination eligibility.

Credits, grading and promotion

- Use the curriculum applicable to your batch to understand credit requirements, theory/practical components, internal assessment and end-semester examinations.
- Confirm the minimum marks/grade required separately for theory, practical, internal assessment and aggregate, if the scheme distinguishes them.
- Ask how SGPA/CGPA is calculated, how failed courses affect progression, and the maximum permitted duration for completing the degree.
- Before choosing electives or registering for a semester, check prerequisites, credit limits, course registration and any fee/dues clearance requirements.

Academic conduct

- Submit original work, cite sources, and follow rules for assignments, projects, laboratory records and use of AI tools.
- Do not plagiarise, fabricate lab results, impersonate another student, falsify attendance or use unauthorised help during examinations.
- Follow anti-ragging, anti-harassment, campus safety and departmental laboratory instructions. Report safety concerns to the appropriate college authority.

Ask for these exact items

Current academic ordinance for your programme and admission year; attendance circular; internal assessment policy; credit and promotion rules; academic misconduct policy; grievance/appeal process; and the contact details of your class coordinator and Head of Department.

4. Academic calendar and deadline management

A complete official 2026–27 DITM/MDU calendar with verified semester dates and holidays was not available in the public material reviewed for this handbook. Dates below must therefore be obtained from the current calendar or circular, not inferred.

Calendar items every student should record

Calendar item	What to confirm and record
Orientation and classes	Reporting date, class commencement, timetable, induction and department orientation.
Registration	Semester registration opening/closing dates, late fee if any, course selection and dues clearance.
Attendance cut-off	Date attendance is assessed for examination eligibility and process for correcting errors.
Internal assessments	Class tests, assignments, presentations, practical evaluations and project reviews.
Examination form	Form availability, submission deadline, fee payment, correction window and admit-card date.
End-semester exams	Theory and practical schedule, exam centre, reporting time and any rescheduled papers.
Results and re-evaluation	Result date if announced, scrutiny/rechecking window, revaluation eligibility and fee.
Breaks and holidays	Semester break, public holidays, winter/summer break and any working Saturdays.
Next semester	Reopening date, registration, backlog exam windows and internship/project milestones.

Simple deadline system

- Maintain one calendar for university dates and a separate checklist for college/department deadlines.
- Set reminders one week and two days before every form, fee or scholarship deadline.
- Save the official notice with its issue date and keep a record of successful online submission.

Do not rely on dates from a previous academic year. Exam schedules and holidays can change through later notices.

5. Examination rules, results, rechecking and backlogs

DITM's website publishes result gazettes for multiple programmes and semesters, indicating that students should track both university examination notices and college/department communications. Exact current exam rules must be checked against the relevant MDU regulations.

Before the examination

- Confirm that semester registration and examination-form submission are complete and the fee has been paid.
- Check the admit card for name, roll number, paper codes, date, time and centre; report errors immediately.
- Read the instructions printed on the admit card and the current exam notice for permitted stationery, calculator rules, identification and reporting time.
- Confirm separate practical/viva dates, lab requirements, project submissions and any eligibility/attendance clearance.

During the examination

- Carry the required admit card and identity document; follow invigilator instructions and seating arrangements.
- Do not carry or use unauthorised notes, phones, smart watches, communication devices or other prohibited materials.
- If a question paper or exam incident appears incorrect, notify the invigilator as directed and record the issue through the official process.

If you fail or miss a paper

- Ask the examination branch whether the paper is eligible for reappear/backlog, supplementary or next scheduled examination under your scheme.
- Confirm the form, fee, deadline, paper code and whether internal/practical marks carry forward or must be repeated.
- If absent due to illness or emergency, obtain the required evidence and ask promptly whether any formal relief is available; do not assume a missed paper can be rescheduled.

Rechecking, scrutiny and revaluation

- First verify the result and paper code against the official gazette/portal.
- Ask which remedy is available: marks verification/scrutiny, photocopy of answer book, re-evaluation or another process. These are not interchangeable.
- Confirm the application window, fee, eligible papers, online/offline procedure and whether marks can increase, decrease or remain unchanged under the applicable rules.

Passing criteria and result interpretation

Do not use a generic percentage or pass mark from another university or batch. Confirm the current MDU scheme's minimum marks, internal/external split, practical requirements, grace-marks rules if any, and promotion rules for your own programme.

6. Fees, payments and refunds

The public pages reviewed did not expose a complete, current, itemised DITM fee schedule for all requested programmes for 2026–27. Exact rupee amounts are therefore intentionally not reproduced as facts.

Request an itemised written fee sheet

Fee component	What the written schedule should clarify
Tuition fee	Annual/semester amount, due dates, instalment availability and any approved revision.
Admission/registration	One-time versus recurring charges; whether refundable and under what conditions.
University/examination	University registration, exam form, practical, reappear/backlog and other examination charges.
Security deposit	Amount, deductions allowed, refund process, required clearance and expected timeline.
Hostel	Room type, mess charges, electricity/other charges, security deposit and vacation-period rules.
Transport/other facilities	Optional facility fees, route/period coverage, cancellation terms and refund policy.
Late payment	Late fee, grace period if any, consequences of unpaid dues and escalation route.

Safe payment practice

- Pay only through the payment channel formally confirmed by DITM; verify account details before transferring money.
- Collect a stamped or digitally verifiable receipt for each payment and preserve transaction references.
- Before withdrawal, transfer or course change, obtain the applicable written refund/cancellation policy and submit a dated request.
- Ask whether scholarships or government benefits are adjusted against tuition, paid to the student, or processed separately.

Questions to ask accounts/admissions

What is the total payable amount for my exact course and admission year? Which charges are one-time? What are the due dates? What happens if I pay late? What is refundable if I withdraw? Are hostel/mess/transport costs included? Are exam fees paid separately to the university?

7. Hostel rules and residential life

A detailed current DITM hostel handbook, room-wise fee chart and approved in/out timings were not found in the public pages reviewed. Do not treat common hostel practices as confirmed DITM rules; obtain the signed hostel undertaking and written rules before paying.

Get written answers on

- Hostel availability, room sharing, room allocation, student eligibility and whether allocation is guaranteed.
- Check-in/check-out times, attendance/roll call, gate closing time, late-entry permission and emergency contact.
- Leave application process, parent/guardian approval requirements, weekend leave and overnight absence.
- Visitor policy, guest access, opposite-gender visitor restrictions if any, and meeting locations.
- Mess menu, meal timings, special dietary arrangements, mess charges, holidays and refund rules.
- Electricity, water, Wi-Fi, laundry, housekeeping, maintenance requests and permitted appliances.
- Security deposit, damage charges, room inspection, prohibited items and disciplinary procedure.
- Medical assistance, emergency transport, fire safety, evacuation points and the warden's contact.

Good residential practice

- Save the warden and campus emergency contacts; report a safety or maintenance issue promptly.
- Do not lend keys or access cards, bypass safety procedures, or allow unauthorised people into residential areas.
- Read the leave and attendance rules before travelling, especially during exams or official breaks.
- Keep payment receipts and a copy of the room inventory; report pre-existing damage at check-in.

Before accepting a room

Inspect the room and washroom, check water and electrical points, confirm storage and security arrangements, obtain the current mess/hostel fee sheet, and keep a copy of the signed allotment and rules.

8. Library, laboratories and campus facilities

DITM's official facilities page describes a library with books and journals, computer labs, a canteen, sports grounds, a Training and Placement Office, a Women Cell and an Anti-Ragging Committee. Exact opening hours, loan limits and fines need confirmation from the relevant office.

Library: ask for the current rule sheet

- Opening/closing hours on regular days, weekends, holidays and during examinations.
- Borrowing eligibility, number of books, loan period, renewal rules, reservation and waiting lists.
- Late-return fines, lost/damaged-book charges, no-dues clearance and replacement policy.
- Reference-only material, journals, e-resources, remote access and access to previous papers.
- Reading-room conduct, seat booking, laptop use, printing/photocopying and bag storage.

Laboratories and computer facilities

- Attend the required safety briefing and use equipment/software only with authorised access.
- Follow lab attendance, record-book, practical assessment and equipment checkout rules.
- Do not install software, change configurations, share passwords or remove equipment without permission.
- Report faulty equipment, electrical hazards or damaged components to the lab in-charge.

Other campus facilities

Facility	Student use / point to confirm
Canteen	Operating hours, payment methods, allergen/food concerns and complaint procedure.
Sports grounds	Booking, coaching, equipment issue, event registration and safety rules.
Training & Placement Office	Training calendar, internships, company notices, eligibility and registration.
Women Cell	Confidential reporting routes, support services and complaint process.
Anti-Ragging Committee	How to report incidents, emergency escalation and protection from retaliation.

Keep your ID card and follow the facility-specific instructions displayed by the college.

9. Scholarships and financial assistance

A complete DITM-specific scholarship list, income limits, benefit amounts and application dates for 2026–27 were not available in the public information reviewed. Eligibility and funding depend on the scheme, domicile, category, family income, course, institution and current government rules.

Potential routes to investigate

- Central and Haryana government post-matric or merit-based scholarship schemes, where the student meets the current eligibility conditions.
- Schemes for eligible SC, ST, OBC, EWS, minority, disability or other defined groups, depending on the scheme rules and state/central jurisdiction.
- National Scholarship Portal or the relevant Haryana state scholarship portal, if the applicable scheme uses it.
- Any institutional fee concession, alumni support or private foundation scholarship formally announced by DITM.

Common documents often requested (scheme-dependent)

- Student identity, photograph, admission/enrolment proof and current fee receipt.
- Previous examination marksheets and qualifying certificates.
- Income certificate in the required format and validity period.
- Domicile/residence certificate and category certificate, if applicable.
- Student bank account details and any Aadhaar/identity linkage required by the official scheme.
- Renewal documents, attendance/progress certificate and previous scholarship details, where required.

Application workflow

- Identify the exact scheme and read its current official notification before applying.
- Check course/institution eligibility, income ceiling, marks requirements, permitted course duration and exclusions.
- Submit accurate information and legible documents before the deadline; save the application number and acknowledgement.
- Complete any institute verification step and monitor objections, corrections and payment status.
- Keep copies and respond promptly if the college or portal asks for clarification.

Avoid scholarship fraud

Do not pay an agent to guarantee a scholarship. Never share OTPs or banking passwords. Confirm the official portal and application deadline with the scheme authority and DITM's designated scholarship contact.

10. Placement policy and career preparation

DITM's official placement page describes a Training and Placement Cell that arranges campus recruitment, internships, skill-development workshops, mock interviews and resume guidance. The page names companies that have participated in recruitment events, but participation does not guarantee a current vacancy or an offer to every student.

What students should confirm in the current placement policy

- Minimum CGPA/percentage, active-backlog restrictions, attendance or disciplinary requirements, and course/branch eligibility.
- Whether students may register for multiple companies and whether an accepted offer affects later applications.
- Rules for dream/super-dream offers, job upgrades, offer withdrawal and duplicate applications.
- Mandatory training attendance, aptitude tests, coding rounds, mock interviews and resume deadlines.
- Internship policy, pre-placement offers, off-campus offers and reporting requirements.
- Required documents, background verification, joining conditions and grievance/appeal process.

Preparation checklist

- Maintain a one-page resume with accurate education, projects, internships, skills and contact details.
- Practise aptitude, communication, technical fundamentals and role-specific interview questions.
- Build demonstrable projects; for computing/AI roles, maintain clean code and documentation and be ready to explain design decisions.
- For Electrical/ECE roles, revise circuits, machines/electronics, measurements, control and relevant practical work.
- For BBA/MBA roles, prepare examples involving communication, teamwork, business analysis, Excel and role-specific knowledge.
- Check each job description for location, shift, compensation structure, bond/service agreement, travel and eligibility.

Placement claims and salary figures

Published placement statistics can use different periods and definitions. Before relying on a package figure, ask for the graduating batch/year, number of eligible and placed students, median/average calculation, fixed versus variable compensation, internship conversion and whether the figure is independently verified.

Professional conduct

Attend scheduled assessments, communicate honestly with recruiters, protect confidential interview material, and read the offer letter carefully before accepting. Never pay a recruiter for a job offer.

11. Student helpdesk and ready-to-use checklist

DITM's contact page lists the campus at NH1 Ganaur, Sonipat, Haryana, phone numbers 9318389921–22, 25 and the email admissionditm26@gmail.com. Contact details can change; confirm the current office/contact before sending sensitive documents.

Who to contact for what

Need	Office/person to ask for
Attendance, timetable, internal marks	Class coordinator / subject teacher / Head of Department
Curriculum, credits, promotion, academic ordinance	Department office and MDU/college academic section
Exam form, admit card, result, backlog, revaluation	Examination branch
Fee statement, receipts, refund and dues	Accounts office / admissions office
Hostel allotment, leave, mess and safety	Hostel warden / hostel administration
Book loan, fines, e-resources and no-dues	Librarian / library staff
Scholarship verification	Designated scholarship/nodal officer and scheme portal helpdesk
Placement registration and company eligibility	Training & Placement Office
Ragging or student safety concerns	Anti-Ragging Committee and the designated college authority

Keep these records throughout college

- Admission offer, fee schedule, receipts, enrolment/registration number and identity card.
- Current syllabus/ordinance, academic calendar, timetable, attendance records and internal assessment results.
- Exam forms, admit cards, result gazettes, revaluation/backlog applications and acknowledgements.
- Scholarship application numbers, certificates, portal status and bank credit records.
- Hostel allotment, signed rules, leave approvals, inventory and deposit receipt, if applicable.
- Placement registration, resume versions, interview schedules and written offers.

Questions to resolve with DITM before relying on this handbook

- What are the current attendance and passing requirements for my exact course and admission batch?
- Where can I obtain the 2026–27 calendar and current MDU ordinance?
- What is the itemised course fee and the refund policy?
- Are hostel places available, and what are the signed rules and total charges?
- What are the library loan limits/fines and facility opening hours?
- Which scholarship schemes are open to my course and what is the internal verification deadline?
- What is the placement eligibility policy for my batch, including backlog/CGPA and offer rules?

Source basis and limitations

Prepared from DITM's publicly available official website material reviewed on 2 October 2026: home/about information, course listings, facilities, placement information, contact details and documents/approval section. The college site lists MDU affiliation and AICTE approval documents. The full official current ordinances, calendar and detailed policy sheets were not all available in the reviewed pages. General academic and student-practice advice is labelled as guidance and must not be mistaken for a DITM rule.

End of handbook
